Re: Peace of Mind Services  
Bonnie Di Angelo

I had the good fortune of coming to know Bonnie and the Peace of mind service when I was recovering from an auto accident this February past. I needed all types of help and services that Peace of Mind offers. Routine errands were not possible for me such as grocery shopping, going to the post office, dry cleaners my car was totaled and I had broken my collarbone and a few ribs. I needed help with all types of errands.

I am writing this to verify what a wonderful service this is. Bonnie is honest, extremely reliable highly organized and a pleasure to work with. I recovered fully by April but am so impressed with this service I signed up for more hours. The service is very versatile and very reasonable cost wise. It has allowed me to concentrate on my company and many other facets of life. If you need a service to help look after your home, run errands or any number of things, I can guarantee that you will not be disappointed with Peace of Mind. Please feel free to contact me about my experience with Peace of Mind

Sincerely  
Michael L. Conn
